

# HF87529726 KIT [Hy-Capacity LED Hi-Lo Beam Light, 13200 Lumens]

## Instruction Guide

1. Apply a penetrating fluid to all nuts. Allow time to soak before removing nuts.
2. Disconnect electrical connections
3. Carefully remove nuts or hardware holding the lights in place. May be difficult to remove due to rust – be cautious to not twist mounting bolts.
4. Remove OE light housing from hood.
5. Place new light into hood
6. Secure new light with hardware provided
7. Attach electrical connections as needed
