

## **S8301392 [Seat Well Extension Kit]**

Instruction Guide

### **John Deere 30 Series Seat Well Extension Kit for tractors with 7 1/2" wide seal well**

1. John Deere 30 Series Seat Well Extension Kit for tractors with 7 1/2" wide seal well  
Remove the seat and suspension from the tractor
2. Cut out 4 1/2" of the cab metal from the left side of the seat well
3. Place the metal kit into the opening from the bottom side and fasten with metal screws.  
Use a 5/32" drill bit for the holes
4. Proceed to install the new suspension as per the installation instructions provided with it
